Rose City Metro Phone line Questionnaire

We at the Metro Committee are checking into setting up a phone line and would like the input of all the groups in both areas. Please have your members answer these questions and return this questionnaire to your Metro committee member by the next area meeting.

1. What would you like to see in a phoneline? (It has been suggested that we get a toll free number so that any addict visiting could find meetings before they get here. Also as we have meeting info in our schedule for areas outside the greater metro area, this might be of great use.)

2. Would any of your members be willing to serve in a phoneline subcommittee, if so how many?

3. The biggest part of operating a phoneline is volunteers to answer the phone. How many members would be willing to work 4 hour shifts (once a week? once a month?) if they could do this from their own phone or cell?

As I hope you can see, paying for a phon line is the least of our concerns, but with the help of all of you concerned addicts, we think we can put this together. More will be revealed.

Yours in service,
The Rose City Metro Committee
